REFUSE TO SHIP BODIES FOR RESEARCH

TWO STATE LAWS IN SHARP CONTRADICTION.

Atty.-Gen. Thompson Asked to Make Ruling on Gruesome Subject.

Atty.-Gen. Frank M. Thompson has been asked for an opinion regarding the conflict of two Tennessee statutes. The statutes involved are the "Anatomical Act" passed by the legislature of 1899 and the "Vital Statistics Act" passed in 1913. Gen. Thompson would not discuss the question because he stated it should be given out by the authorities at Nashville and not by him. The question arose as the result of the express and railroad companies refusing to accept bodies for shipment unless they were accompanied by both a death and burial certificate. The act of 1899 provides for no burial certificate, but the act of 1913 does. The question is an important one at the present, especially locally for the reason that one of the greatest medical cantonments in the world is now being maintained at Camp Greenleaf. The University of Chattanooga, which has been taken over by the government, is now being used for medical purposes, and night students at Camp Greenleaf are being instructed with concrete illustrations in the intricate and delicate art of modern surgery.

FOR FIRE PREVENTION

Gov. Rye Sets Aside Nov. 2 as Day to Be Observed.

According to a proclamation issued by Gov. Rye, the day of Nov. 2, which heretofore has fallen on Oct. 3, will be observed throughout Tennessee on Nov. 2. The day was set aside for the observance of the day of the fire and accident prevention day. The day was set aside for the observance of the day of the fire and accident prevention day.

The history of the nation, never has the menace of fire been greater, and the husbanding of our resources more necessary. The unusual strain upon production in its effort to meet the needs of the war, while the danger of incendiary threats in many parts of the country, causing the destruction of foodstuffs and material. Every fire strikes at the foundation of national power.

The toll of human life from fire and accident suggested the safety factor to be added to the observance of fire prevention day, heretofore on Oct. 3 of each year. The day falling within the period of the liberty loan drive this year, in importance, the day was set forward to Nov. 2, with the understanding that the liberty loan speakers were to call the attention of the people to the importance of fire and accident day.

"Fire losses in the United States, with the upkeep of fire departments occasioned by these losses, total, in wartime, annually \$500,000,000. This statement is made upon investigation that 80 per cent of these losses are due to carelessness and fire that were preventable. The annual per capita fire loss in the United States is over \$2. The loss per average \$500 per minute. Tennessee fires destroy more than \$3,500,000 worth of property each year, to say nothing of the many lives that are sacrificed."

"Therefore, in keeping with the spirit of conservation, I earnestly request that all efforts be directed to the need of fire prevention, which has become a court-trywide custom, and that Saturday, Nov. 2, 1918, be set aside as fire and accident prevention day for the state of Tennessee."

"That appropriate exercises be held in all schools throughout the state on Friday, Nov. 1, and that teachers, assisted by municipal officers and the fire department, give to the children such information and instruction as they may have at their command on the subject of fire prevention."

"In testimony whereof, I, Tom C. Rye, governor, as aforesaid, have hereunto set my hand and caused the great seal of the state to be affixed at the department in Nashville, this 22nd day of October, 1918."

"TOM C. RYE, Governor."

"The B. Stevens, Secretary of State."

POQUE-ABEL RACE

Light Thrown on Muddle in Rhea From Another Viewpoint.

W. L. Givens, of Rhea county, supporter of R. P. Abel in his race for federal representative of Rhea and Meigs counties against Poque, in an interview with the correspondent of The News at Dayton takes exception to the statement as to this race as forecasted in The News a few days ago and stated that the full facts were not fully stated.

Mr. Givens says it is true that Poque made the race as a partisan democrat in the primary, which was held on August 1 and when he was defeated he professed to see a light and sought the endorsement of the republicans for the office, and now is seeking a place on the official ballot as a republican. However, it is very doubtful as to whether or not the election commissioners will allow his name to go upon the official ballot for the reason that it would be trifling with the primary elec-

B. M. LOWRY WRITES ON GERMAN PAPER AFTER FIVE OR SIX DAYS UNDER FIRE

Americans Capture French Chateau Where Civilians Had Been Imprisoned in a Dungeon for Four Years.

Miss Laurine Proffitt, daughter of Prof. S. Houston Proffitt, has received a letter from Brents M. Lowry, member of the 66th Company, 1st Battalion, 128th Infantry, U. S. Marine Corps, 1918. He tells of having been in a big fight in which the Americans captured an old chateau that had a large dungeon under it which was full of civilian prisoners. These people had been there for four years.

He states that he has been five or six days on the front "under shell fire from these old Dutchmen."

Mr. Lowry is the son of Mr. and Mrs. E. A. Lowry of Nashville, Chattanooga, and the letter in part is as follows:

66th Co., 1st Battalion, 128th Inf., U. S. M. Corps, A. E. F.
"Yes, I've been through another big fight. 'Al Americans' this time, as the paper tells. We were in a big chateau, and the primary and had been honorably defeated. Politics don't seem to trouble Mr. Proffitt at all; all he wants is the office, and he's running as an independent republican."

A very few disorganizers—and they are not good fighters—were in the line of opposing the ratification of the prohibition amendment, but all honest men know that Abel has always been advocating national prohibition and now is strong for the national prohibition amendment, and that he will heartily support the measure when presented to the next legislature. He is running as an independent republican."

FRENCH WINE STRONG

Says John Clendennon in Interesting Letter to 'Squire Caulkins.

"Squire H. B. Caulkins has received a letter congratulating him upon being elected justice of the peace for the private property of the headquarters company, Thirtieth division, stationed 'somewhere in France.' Private Clendennon, a local boy and formerly a student of the Chattanooga High School. The young man speaks interestingly of life in a barn where his detachment is billeted. He writes: 'We are at present located in a big barn. There are home-made cots with nails to hang our equipment on. The half of the tile has been removed from the roof. It has rained every day, too, so far.'

"Time sure does go fast. It has been almost a year since I was in Chattanooga, but at the rate we are going now the boys will all be back in the old U. S. A. before long. The allies are covering the ground. You can see by the American papers that the Sammies are giving all their HAVES."

"I had a big time last night. Now I don't mean that I was in the frolic. Three of the boys got pretty well 'tanked up' and a big fight was the result. I have spent the entire morning patching up their cuts. Bad stuff, this French wine. But the boys are all good fellows now."

"I am in good health and we expect to be home real soon. It is 'Hell, heaven or chocolate' by Christ. We will be due a stripe in just two months. This country sure has me beat. It just rains and rains and rains. That is what prolongs the end."

Vinol will Stop a Cough and Break Up a Cold

A constitutional remedy that removes the cause by building up the system. These elements contained in Vinol—Beef and Cod Liver Peptones, Iron, Manganese and Glycerophosphates—soon create an energy that throws off the cold and prevents its recurrence. It has given ninety per cent satisfaction for sixteen years. HERE IS PROOF:

Dunn, N.C. "I suffered with a chronic cold for four months, coughed day and night. Had to keep on working when I was not able to. I saw Vinol advertised and tried it, and I want to tell you it just cured that cold in a short time. It made me eat and sleep well, better every day."—J. C. Bagley, Dunn, N.C.

Lagrange, N.C. "For years I suffered with a chronic cough, so I could not sleep nights and continued to lose flesh. My druggist asked me to try Vinol. It cured my cough, I can sleep nights and have gained twelve pounds. Vinol is the best tonic and tissue builder I have ever taken."—W. D. Ren, Lagrange, N.C.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

DOCTORS RECOMMEND MENTH-ALBA AS A PREVENTATIVE

Say Its Use May Keep One Free From "Spanish" Influenza.

There is no need for alarm when you sneeze, take a little cold or your head gets stopped up, for these conditions do not indicate that you have taken influenza or la grippe.

You should not, however, neglect these signs of a cold. They are likely to result seriously.

Keep your nose open. Lubricate your nostrils several times a day with snow-white antiseptic Menth-Alba.

This delightful compound will clear the air passages, permitting you to take good deep breaths of fresh air—and fresh air is necessary. It is also advisable to keep the bowels open with a reliable laxative. Rich's Little Liver Eggs are good.

Menth-Alba, while recommended for the prevention of influenza, is also fine as a first-aid in pneumonia, asthma, bronchitis, for catarrh, neuralgia, croup, sore throat and similar troubles.

Get a large 25c jar from your nearest druggist today. Use it freely. It's pure—can be swallowed with no bad effects. It will not stain hands or clothing, nor smart the tenderest skin. Spurluck-Neal Co., Nashville, Tenn., will send you a liberal sample on request.—(Adv.)
